Valuation Summary

This report appraises SOLEnterprises NexusConnect as a transferable proof asset: a single-page digital command hub presenting the SOLE portal network, founder credibility module, and capability briefs. The valuation reflects product depth and packaging quality, and explicitly excludes revenue, pipeline, traffic, and conversion performance.

Scope

This appraisal values the website as a proof asset (brand hub + shipped systems). It excludes traffic history, rankings, conversion performance, and any revenue-based valuation. External services and API usage costs are not included.

Included

- Public pages and systems sampled as evidence (see Evidence URLs).
- Observed routing, UI flows, and packaging quality as a unified branded suite.
- Visible integration cues (e.g., payment CTAs, key gating, local-first storage patterns) where publicly observable.

Excluded

- Traffic, revenue, close rates, and pipeline performance.
- Private repositories, backend services, or admin systems not publicly visible.
- Licensing valuation for third-party APIs or services (payments, AI providers, auth providers).

Appendix

Measured observations (live scan)

- Cyberpunk command-hub layout with orbital navigation and a portal grid; hub reports 13 Active Portals.
- Multiple named nodes referenced (SOLEnterprises gateway, Skye Family Hub, Kee Care, Skye Code Nexus, Skyes Over London LC, Contractor Wage Center, Opportunity Nexus).
- Founder credibility module and two capability briefs (3D conversion + SkAIxu IDE) embedded on-page.
