Valuation Summary

This report appraises Fleet Ops Command as a transferable proof asset: a public operational guide library plus a compact templates hub. The valuation reflects product depth and packaging quality, and explicitly excludes revenue, pipeline, traffic, and conversion performance.

$21,100

2026 Proof-Asset Valuation (single-number appraisal)

Asset Snapshot

Field	Value
Site URL	https://fleetopscommand.netlify.app/
Valuation date	2026-02-24
Total valuation	$21,100
Guides published	13
Public pages sampled	4 (Home, Blog, Resources, About + spot-check guides)
Primary posture	Operational playbook library + templates hub
Key linkouts observed	SOLEnterprises Contact Hub; Executive Authority standard
Storage posture observed	Static site (no on-site backend observed)
Known polish item	Add on-site lead capture (currently routes to external contact hub)

Valuation Breakdown

Component	Amount (USD)
Fleet Ops hub + routing shell	$5,300
Operational guide library (13 guides)	$9,400
Library UX + taxonomy (tags, filters, cards)	$2,600
Resources page (templates & checklists)	$1,800
Standards integration (Exec Authority + Contact Hub routing)	$900
QA, packaging, and review hardening	$1,100
Total	$21,100

Quality and Scope

Quality Scorecard (Internal Rubric)

Category	Score (0-10)	Weight	Weighted
Information architecture (Home → Blog → Guides → Resources)	8.3	20%	166.0
UX + visual system consistency	8.0	20%	160.0
Content depth (13 guides + reusable templates)	8.2	30%	246.0
Packaging / SEO readability signals	7.6	15%	114.0
Conversion readiness (implementation routing)	6.8	10%	68.0
Security posture (static baseline; minimal attack surface)	7.5	5%	37.5
Composite	7.92	100%	79.2/100

Scope

This appraisal values the website as a proof asset (operational guide library + templates hub). It excludes traffic history, rankings, conversion performance, and any revenue-based valuation. External implementation systems and services are not included.

Included

- Public home page, blog library, resources page, and about page.
- Thirteen operational guides (dated 2026-02-06 through 2026-02-18).
- Tag taxonomy and library browsing UX.
- Resources hub that extracts checklists/templates from the guides.
- Direct routing to SOLEnterprises Contact Hub and Executive Authority standard.

Excluded

- Traffic, revenue, close rates, and pipeline performance.
- Any private repositories, internal dashboards, or backend systems not publicly visible.
- Licensing valuation for third-party services (e.g., messaging, telematics, ELD platforms).
- Implementation buildout (forms, evidence storage, dispatch dashboards) beyond the public library.

Appendix

Measured observations (live scan)

- Operational guide library with 13 published guides; each guide is directly reachable from the blog index and linked from the home page.
- Resources page consolidates templates/checklists derived from the guides, intended for internal SOP building blocks.
- Consistent cross-linking to SOLEnterprises Contact Hub (implementation requests) and Executive Authority (external operating standard).
- Static posture: guides are informational; implementation is routed to external contact hub rather than captured on-site.
