Valuation Summary

This report appraises SkyeLeticX as a transferable proof asset: a public league site with rules/pricing and championship structure, plus multi-step player and owner intake flows. The valuation reflects delivered scope and packaging quality, and explicitly excludes revenue, traffic, registrations, or ticket sales performance.

Scope

This appraisal values the website as a proof asset (brand hub + shipped systems). It excludes traffic history, rankings, conversion performance, and any revenue-based valuation. External services and API usage costs are not included.

Included

- Public pages and systems sampled as evidence (see Evidence URLs).
- Observed routing, UI flows, and packaging quality as a unified branded suite.
- Visible integration cues (e.g., payment CTAs, key gating, local-first storage patterns) where publicly observable.

Excluded

- Traffic, revenue, close rates, and pipeline performance.
- Private repositories, backend services, or admin systems not publicly visible.
- Licensing valuation for third-party APIs or services (payments, AI providers, auth providers).

Appendix

Measured observations (live scan)

- Public league site with explicit rules, market positioning, and championship payout framing.
- Multi-step intake forms for players and team owners; waiver coverage observed.
- Editorial package includes 3 longform pieces; expanding the library increases indexing density and authority.
