Scope

This appraisal values the website as a proof asset. It excludes traffic, rankings, conversion performance, and any revenue-based valuation. Portions of the ecosystem are visibly gated; this valuation does not assume full access to gated SIGIL layers or contractor-only consoles.

Included

- Secure access gateway (key-based entry concept) and public navigation hubs.
- Services catalog, pricing surface, contact hub, leadership dossier, store hub.
- Policy surface (Privacy/Terms) and hub-level navigation structure.
- Perceived implementation complexity from observed pages (motion, modules, forms, routing).

Excluded

- Traffic history, rankings, and Search Console performance.
- Lead volume, close rates, revenue, or any sales-driven valuation.
- Backend-only systems behind gated access (if not publicly observable).

Appendix

Observed features supporting the appraisal:

- A key-based secure access gateway with sign-in/sign-up surfaces and an access flow.
- A central SOLE Hub that routes to multiple divisions and operational pages.
- A full services catalog organized by “realms” (Logistics, Sanctuaries, Intelligence/AI, Storyworlds) and business services.
- Dedicated pages for Pricing, Leadership, Storefront, and Authority services.
- Policy pages (Privacy/Terms) present for compliance surface.
